B

ADDITIONAL INFORMATION

In addition to this production activity, I devote a large part of my life to the creation of visual art such as posters and tattoos. I make both artistic and promotional posters. Promotional posters typically focus on album/EP covers, music events, concerts, theater performances, and more... Thanks to my bachelor's degree, I have strong skills in scriptwriting, working with visual art elements or physical expression, and preparing workshops on various topics using drama education exercises. I am also skilled at developing a wide range of creative concepts and solutions.

I have been actively involved in tattooing since the beginning of 2021. I started with a hand poke and now I tattoo purely with a machine. I currently work in the studio at Rybářská in Brno - Arthub shared studios around Bastl instruments.
